

## **Movies in the Park Rain Cancellation Policy**

### **24 Hours Prior to the Movie Showtime**

- If there is a 70% or higher chance of rain 24 hours before the scheduled movie show time, the movie will be cancelled.

### **Day of the Movie**

- If there is a 70% or higher chance of rain during the day of the event, the movie will be cancelled.
- For rain chances below 70%, NORDC will monitor the weather throughout the day. A final decision on the weather and field conditions will be determined by 5:00pm.
- MITP equipment cannot be placed on wet fields. If there has been recent rainfall NORDC will determine whether the grass and turf are adequately dry, to allow for the equipment to be placed without causing damage.

### **Rescheduling Due to Inclement Weather**

- All cancelled movies must be rescheduled for a Saturday date within the same MITP season, preferably at least 2 weeks from the original date to allow time for advertising.
- Dates for rescheduled movies are available on a first come, first serve basis.
- The original movie must be shown on the rescheduled date.
- In the event that the rescheduled date is also a rainout, the host organization may reapply for the next MITP season, but a second rescheduled date will not be provided.
