

Algiers Boosters

09.04.2021

Philosophy

The philosophy and mission of The Algiers Booster Club is to provide children with positive athletic experience.

The athletic programs are designed to offer children an opportunity to improve their skill level and develop an understanding of the concepts of the sport through participation, sportsmanship, competition and discipline. This will be a community effort to provide guidance and mentorship from coaches, volunteers and parents.

Each athletic program is divided into different age groups in an effort to organize players according to their level of skill development and understanding of the concepts of the sport. The youngest age group serves as an introduction to the particular sport and the concept of team sports. Emphasis is placed on participation, an introduction to the concepts of sportsmanship and an introduction to the concepts of the particular sport. The middle and older age groups serve as an introduction to competitive sports. *Emphasis is placed on participation, sportsmanship, skill, development and team concepts.*

The Algiers Booster club currently offers athletic opportunities in Baseball, Softball, Soccer and Flag Football. Football, Track and Basketball will be also considered. The anticipated programs include the following:

TBALL Coed ages 4-5

Boys Baseball

Girls Softball

Boys & Girls Soccer

Boys Flag Football

Age groups will include 5-6, 7-8, 9-10, 11-12 and 13-15

Start Up

An initial Advisory Committee is presently forming a non-profit organization and beginning the process of getting the program off the ground.

The Algiers Booster Club will be operated and governed by a Board of Directors from the Algiers Community. The ultimate success in the organization will rest with volunteers from the Algiers Community. If you have an interest in youth athletics, please contact us.

The organization structure of the organization includes:

Advisory Committee

Board of Directors

President

Vice President

Treasurer

Secretary

Commissioner of Baseball

Commissioner of Soccer

Commissioner of Flag Football

League Coordinators

Concessions Manager

Maintenance Director

Facilities and Economic Impact

The Algiers Booster Club (ABC) would like to negotiate a lease with NORD to operate its program at the Skelly Rupp facility on Vespasian. This facility is centrally located and easily accessible. ABC would be responsible for all expenses at the facility

The facility is currently scheduled for renovation in late 2021. We believe this facility can be the center point of youth athletics in Algiers. This program will be in operation 12 months a year and not only serve Algiers recreational sports but weekend tournaments with teams from across the city and state. Our full-service concession stand will offer families an opportunity to spend evenings at the park and interact with their neighbors.

The Skelly Rupp renovation should include the ability to play on multiple fields at the same time for all sports. Artificial turf fields will allow for continuous play and improve teaching of individual sports. In addition, a full-service concession building will be vital to the operation of the program and support the budget.
